**Thursday, October 19, 2017** Additional \$250 fee per person for Thursday courses

7:00-8:00	Check in
8:00-5:00	Biological Dentistry 101 – Lunch included
8:00-5:00	From Impaired Mouth Syndrome to Holistic Mouth Solutions – Lunch included
6:00-8:00	BOARD MEETING – Mandatory for Board Members

**Friday Oct 20, 2017**

7:00-8:00	Registration
8:00-8:15	Opening comments by Felix Liao DDS
8:15-10:00	“Energetic Testing: In Vivo Biofeedback for More Accurate Diagnoses and More Effective Treatment Plans” – Louisa Williams, MS, DC, ND This presentation will include a brief history of energetic testing, demonstrations of various testing: kinesiology and MRT, and a workshop session for participants to practice testing for dental-related issues.
10:00-10:30	Vendor Time
10:30-12:00	“Detoxification and Regeneration in the Management of Disease” – Victor A Marcial -Vega MD We will discuss the various modalities used at our center to detoxify individuals from common contaminants such as heavy metals, gasoline and its derivatives like plastics and pesticides.
12:00-1:30	Lunch and vendor time
1:30-3:00	“The Clinical Use of Nitric Oxide in Dental Medicine” –Nathan S. Bryan, Ph.D. Nitric oxide is a critical signaling molecule responsible for regulating blood pressure, neurotransmission and immune function. This lecture will describe pathways of nitric oxide production, revelations of nitric oxide producing bacteria and discussions of how dental medicine professionals can incorporate nitric oxide therapies in their practice.
3:00-3:30	Vendors
3:30-5:00	“Oral Infections Cause Heart Attacks” – Thomas Levy MD Hidden dental infections represent an easily diagnosed and treatable condition that causes, conservatively, greater than 80% of all heart attacks today.
6:00-10:00	Evening EVENT: To Be ANNOUNCED

**Saturday October 21, 2017**

8:00-9:30	“Ozone Dental Therapies” – Eric Zaremski, DDS, OFM Ozone has become a hot topic recently in the dental community. We will talk about the history, science and uses of ozone in it’s different forms in dentistry. You will have a better understanding of what ozone is and how it is used in dentistry and medicine. You will learn how it is used safely in every facet of dental care.
9:30-10:00	Vendors
10:00-11:30	“Top 5 Reasons To Doubt Your Heart Doctor” – John Parks Trowbridge MD Control of modern medical practices is intensely focused on “process” and not “product,” and physicians can lose their license for “doing it differently” despite producing results that the “conventional approach” failed to provide. How to avoid becoming a victim in this head-on crash/clash of values as newer, more effective standards of care emerge.
11:30-1:00	Lunch and Vendors
1:00-2:30	“Stem cell treatment for TMJ” James Weiss MD Learn how stem cell treatment can help TMJ and musculoskeletal problems in a dental practice. This is state of the art technology.
2:30-3:00	Vendors
3:00-5:00	“What you want to know about the EPA and Water Treatment Regulations Mike Darcy (MARS) This is to discuss how we can simply protect our environment, with or without the EPA ruling, with the proper use of amalgam separators, evacuation line cleaners, and toxic waste recycling. If you already have an amalgam separator, how to make it more effective in order to meet the Water Treatment (POTW) discharge limits.

**SPEAKERS**

Louisa Williams

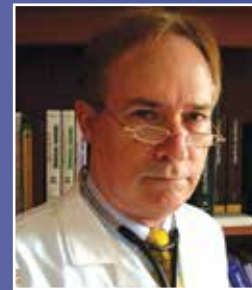

James Weiss

Nathan Bryan

Victor A. Marcial

Thomas Levy

John Trowbridge

Eric Zaremski

Mike Darcy
