WHAT YOU DON'T KNOW CAN HURT YOU

David J Getoff has a B.S. in Nutrition and Holistic Therapies. He is a board certified traditional naturopath and board certified Clinical Nutritionist. He teaches at Price Pottenger Nutrition Foundation and The American College of Integrative Medicine and Dentistry. Since 1992, he has had a private practice in Traditional Naturopathy and Clinical Nutrition in San Diego, California.

Dr. Getoff is the current Vice President of the Price Pottenger Nutrition Foundation and elected member of both the International and American Associations of Clinical Nutritionists and the International Academy of Oral Medicine and Toxicology.

This seminar will cover a vast amount of clinically relevant information. Each topic will be addressed according to mainstream beliefs and known clinical causes followed by what clinical experience has shown to be the best supplements and methods of treatment for each health condition.

Course Topics

- ◆ EMF Radiation Hormesis — How EMF/EMR Wireless Radiation, that we are being bombarded with 24/7, is effecting our current and future health and what are the best methods to reduce our risks..
- ◆ Water—Everything you didn't realize you need to know: Ph, plastic bottles, hormones, contaminates and purification.
- ◆ Evidence Based Medicine— A term that is massively misused. What it really is and how the designation is being twisted.
- ◆ Food, Drug and Cosmetic Coloring—All the additives you don't want to see in the products you use and what products don't have them.
- ◆ Energy and Energy Medicine—Energy is used throughout the field of medicine with x-rays, CT Scans, MRI and Sonograms. However, when energies are used in other ways, they get looked at as fictitious regardless of the results they may help you attain. Reiki, Touch for health, muscle testing, numerous computer based biofeedback devices/scanners, PEMF and even radiation hormesis will be discussed.
- ◆ Keto Genic vs. Paleo Diet - They have received a growing amount of coverage in the media, diet books and health talks. Learn what they are and what their differences are to help you decide if you want to try one or the other to improve your health.
